Focus On High School Chemistry Student Textbook (softcover)

Synopsis

The Focus On High School Chemistry Student Textbook provides students with a solid foundation in chemistry that will prepare them for college level classes. Topics covered include atoms and mass, chemical bonding, chemical reactions, acids and bases, acid-base reactions, mixtures, separating mixtures, organic chemistry, polymers, DNA, RNA, and more. The Student Textbook contains ten full-color chapters. Grades 9-12.

Book Information

Paperback: 258 pages

Publisher: Real Science-4-Kids (February 11, 2013)

Language: English

ISBN-10: 1936114941

ISBN-13: 978-1936114948

Product Dimensions: 8.5 x 0.6 x 11 inches

Shipping Weight: 1.6 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars 4 customer reviews

Best Sellers Rank: #307,609 in Books (See Top 100 in Books) #61 in Books > Children's Books > Education & Reference > Science Studies > Chemistry #4434 in Books > Children's Books > Science, Nature & How It Works

Customer Reviews

Dr. Rebecca W. Keller received her PhD in biophysical chemistry from the University of New Mexico in 1992. She was then awarded a National Science Foundation postdoctoral fellowship in the Department of Molecular Biology at the University of New Mexico, followed by a Burroughs Wellcome Fund Postdoctoral Fellowship in the Department of Molecular Biology at the University of California, Berkeley. As Dr. Keller home schooled her three children, she was unable to find science textbooks that she felt would give her children a solid foundation in the sciences. Her scientific background, coupled with her desire to educate her children, led Dr. Keller to found Gravitas Publications, Inc. and to develop the Real Science-4-Kids curriculum. Real Science-4-Kids is a "worldview-neutral" curriculum that provides students with a solid foundation in the sciences and also gives them the tools to evaluate scientific data on their own. Students are presented with up-to-date scientific facts and the steps of the scientific method, together with the critical thinking tools needed to help them evaluate scientific conclusions. Dr. Keller's books are as philosophically neutral as possible and do not impose any single overall philosophical

interpretation such as Darwinism, Intelligent Design, or Creationism. Instead, they allow students to make up their own minds about what the data show. Real Science-4-Kids, with its engaging, kid-friendly text and easy to use teacher-friendly manuals, is used in home, private, and public schools in all 50 states in the US and in many other countries. Dr. Keller's publishing team continues to develop and test products at her Albuquerque headquarters. The website for Real Science-4-Kids is www.gravitaspublications.com.

Great Purchase! Thank you!

great

Love this science series! It is purely science, with no religious overtones. It is designed for homeschoolers, who generally don't have access to a fully-stocked chemistry lab. The information is presented clearly and thoroughly, and the experiments are broken down, step by step. I've tried numerous other programs over the years. This one is the best.

Fast shipping - as described. Thanks!
