Customer Reviews

Baby Professor showcases a collection of subjects that would be educational for kids to help them learn how to do something themselves or shows how something is done or how it came about. Children love to learn through attractive visuals and Baby Prof. is the perfect starting point to get your child the head start he or she needs for the future. Our Motto - "Learning is Fun, so let's Make it Fun to Learn".

Easy to read and provides clear descriptives. My 8 yrs enjoyed reading it. Vocabulary builder and great introduction for teaching children about the periodic table.

The informations was too basic and bland even for a child. Not attention grabbers for children. More examples and illustrations needed.

I like the way how they make the content , it makes me want to keep on reading the next page .
