Customer Reviews

Worked great for my son in his classes that required a clicker. No problems at all!

Works like a charm and it was for half the price! Great for university classes.

I'm not exactly thrilled to get it, but I'm a student, so that's to be expected. As for the product, I won't be using it for a couple months, but it seems fine so far.

It's required and mandatory in my college class. So I had to buy it. Honestly, it's kinda expensive for college students. But compared to other same products on Amazon, it is more cheaper and works very well. What's more important, it arrived on time. LOL

Good packaging new on time 2 months later and the batteries it came with work great

First of all I did not want to buy this at all. It was required and I'm not happy about purchasing it. However, I have not had a single issue with it all semester. For its function and limited use within my courses it is far too expensive for a college student. For the quality it works perfectly. Buy it here, it's a lot cheaper on Amazon, and it gets to you pretty quickly.

Came earlier than expected, worked fantastically and arrived with a full charged battery already

inserted! Great purchase!!

And there is something loose inside. I like the iClicker brand but I would not recommend buying this specific clicker.
