Cartographia, organized in 1954, is the largest map publishing company in Hungary. Its tourist, city, and road maps, and atlases, cover destinations throughout Europe and other parts of the world. The firm has also produced cartography for well-known map-publishing houses such as Falk, Ravenstein, Hallwag, Freytag Berndt u. Artaria. Cartographia's maps provide a richness of detail that more than compares with other commercially available travel maps. The city plans include expanded coverage without sacrificing detail. With the expanded coverage, Cartographia maps can retain value for a long time. Country and region maps include shaded relief without compromising readability.
