Customer Reviews

It's not the end all be all tool book but it has more then I was expecting on hand tools. It's just basic stuff but still good. It'd make a good loner book to a friend who asks about odds and ends and that's mostly what I'll keep it for.

Excellent.

I'm glad I got a copy of this book - it was just what I needed. There's almost too much info in it. Very useful for keeping me knowledgeable in the shop.
