My 8 yr old doesn't enjoy reading but he begged for the first Bad Guys book from his school's book

fair. I have bought so many books that have collected dust. I was dubious that this would be any different. He finished it in one day (he was 7 then). This is a big deal!! He counted down the days until the 2nd book came out. He actually received it the day it released BUT he wanted to wait until the next day so he could read it in one day again. He now wants to be an author & illustrator.

These books are a hoot--my son picked the first one out at his school book fair and we roared when we read it. I bought this one and it was equally funny--lots of kid humor and a funny story line. We've pre-ordered the third one as well. The author's other series, the Yeti Files, was also a hit for our family. It is hard to get my son to want to read, but he looks forward to reading these books. He's in 3rd grade.

Great series of books - My son who is in 3rd grade and NOT a book worm loves this series! Very funny and great for young readers. He has shared the series with his friends and they all love the books. Eagerly awaiting the next addition!

My 8 year old son loved this book.

My daughter is 2 and she loves when I read this book to her. I create really different vibrant voices for each character and she adores it. She's engaged and I love to see her enjoying it. She picks this book up and brings it to us often. It's fun, silly and is great with our children 9 and under. A great read!

My son loves this series. He's advanced in his reading ability, but most books that are at his reading level were not interesting to him. This series caught his attention.

My daughter loves this series of books. It has a little bit of bathroom humor, but kept my daughters giggling and engaged during the half hour it took her to read it.

Bought these for my son. They are below his grade level but he thought it was funny. I read the books too. They are funny.
