Customer Reviews

The book itself is nice if it worked upon arrival but it did not, the sounds didn't work, and yes, I took the plug out of the back by the batteries. :) My grandson will love the replacement book as one of his birthday gifts if it arrives on time. Nothing is more frustrating then getting a broken item. is great with replacing items so I will continue to shop on .

My son loves this book. He knows all of the trucks by name and loves pushing the buttons

My 2 year old son loves trucks and pretty much any other type of vehicle. He couldn't love this book more!! I'm so glad that I got him this book.

My son enjoys this book. He learned a lot from the different pictures and sounds

Great book for a little boy, who loves trucks!

Loved all the sounds, but my son bent the page back and it ripped after the second read. We still read the book because he loves it... but it's not as sturdy as other board books.

Lots of fun,

Grandson loves it
