# **The Cure For All Advanced Cancers**

## Synopsis

Cancer can now be cured, not only the early stages, but also advanced cancer, stages four and five, including imminent death. We are not accustomed to thinking about a cure. We think of remission as the only possibility. But this book is not about remission. It is about a cure. This is possible because the true cause of cancer has been found. The Cause of the malignancy is explained in the earlier book, *The Cure For All Cancers*. But removing the malignancy left behind the tumors as they were, prior to the malignant development. So, eliminating tumors became the focus of additional research, and is the subject of this book. The 21 Day Program described in this book does both. Once you win this battle, even advanced cancer can be cured. The success rate for advanced cancer is about 95%. So you can count on this method, not merely hope it will work for you. It is a total approach that not only shrinks tumors, but also normalizes your blood chemistry, lowers your cancer markers, and returns your health. The small failure rate (5%) is due to clinical emergencies that beset the advanced cancer sufferer. However, if you combine the advice in this book with access to hospital care, even hopeless patients can gain the time necessary to become well again.

Dr. Clark is an independent research scientist with a Bachelor of Arts, Magna Cum Laude, and the Master of Arts with High Honors from the University of Saskatchewan, Canada. She studied for two years at McGill University before attending the University of Minnesota and obtaining her doctorate

degree in physiology in 1958. After doing government sponsored research for almost ten years at Indiana University, she began private consulting in nutrition in 1979. She continued her studies to earn a Naturopathy degree and an amateur radio license. The freedom to follow her most promising observations led to the breakthrough discoveries described in this book.

My friend used this for advanced prostate cancer. In just 3 weeks his cancer marker, which had been climbing steadily, came down more than 50%. NOTE: There is a program that I heard is better in Hulda Clark's final book: The Cure and Prevention of all Cancers. The program in that book is much lighter, and runs for 2 weeks instead of 3. My friend is trying it out right now - no results to report yet.

I was interested in her explanation of the cancer cascade of disease, but horrified by her laborious solution. If anyone has the ambition to jump through all these hoops, more power to them. As an individual fighting Stage IV, the demands of the 21 day cure filled me with fear and dread.

Most ideas worked for me.

Though older book it's still speaks loudly today. Excellent informative reading.

Everything you need to know to cure the problem

Excellent!

Plan to do this.

Great Information that you can't get anywhere else, or so it seems.
