My daughter loves this book. It is well written, and the story definitely appeals to little children.

The images look wonderful, the text is large and appropriate for young children. The Spanish

translation is overall very good, surprisingly! One page says "Se lanzó fijando escaleras arriba" and such verbal choice is not typical of Puerto Rican Spanish. We don't say "He threw himself up the stairs," odd construction. Other than that, which is a minor detail that can be skipped when reading by replacing it with another word, the book is truly nice.

My daughter really liked it.

The book is in excellent quality. We have 2 dogs so my toddler can relate easier with an animal that he sees every day.

The most important thing for me about the spanish versions of the children's book is the translation from the original version. They did a great job with this one, I would definitely recommend for someone who is raising a bilingual kid.

One of several books purchased to build a bilingual library at abuelitos' house. Went over well with a 5- & a 7-yr old.

The book is super cute and well translated from its English counterpart !

I am a bilingual speech pathologist. I bought both the English and spanish book. The students Pk through 5th grade loved learning different things with this book. After reading it, we played with plastic dogs in a plastic bowl full of dirt and washed them with a brush.
