Our class used another book which was much more expensive and confusing than this book. However, I would say most of the material in the two books are the same, even the chapter sequence. This book explains the basic corp tax concepts & code sections very clearly in simple understandable language. Without it, I would have definitely failed my corp tax class, since TAX is HARD. I highly recommend getting this book!!! I ended up getting an A in that class. Thank you:)

It's an awesome introductory guide to corporate taxation. Much more accessible than Bittker and Eustice. However, it would be nice it had more coverage of section 382 limitations.

I thought this book was extremely helpful and without it I would not have made it through my Corporate tax class.

Explains concepts well, but still a bit dense (not nearly as dense as my casebook though).

Loved this book. Still referring to it for other classes. Really helpful.

Arrived on time and this book helped me get the grade I needed in Corporate Tax. For law students, I would definitely recommend getting this book. It was very helpful for me.

Excellent

I took Corp Tax w/o a text book, and it was basically impossible to figure things out without this book. The portion on reorgs could be better, but overall it's very helpful.
