Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I bought this songbook for one song in particular. Being a big country music fan I personally think there are 99 other good songs in it. Hopefully I will get around to learning them.Sometimes a

particular song sticks in your head and you feel like you gotta learn to play it but the freebie guitar sites do not have a good version of the song you are looking for. The song that I bought the book for really sounds good the way it is arranged when played on my acoustic guitar. IMHO, the Hal Leonard music books are hard to beat as far as accuracy. Their books are pretty easy to learn from especially for people that teach themselves to play. If you like country music, this one has some great songs in it. Buy it, you won't regret it....

I like the song book, however I believe some of the cords are a little more advanced, (my fingers won't stretch enough to make some of the cord as shown). With that having been said there is a good variety of music to play, I am partial to Country/Western and found enough to keep my interest up as I went through the book.

I love the arrangements and the songs in this book. Some are the old country songs and others more recent. A great buy.

Excellent selection and mix of music. Some are easy enough for beginners and some are more challenging. Visual of guitar fingering as well as music notes encourage less than proficient players to give it a try. Fun to use it for simple piano/guitar duets. Great value. Enjoyed the time span of the selections. Easy to read words and music.
