Making Leather Gear

Making Leather Gear

Daddy Wendell

Synopsis

The book contains an overview and description of basic leather working tools and techniques for using them, how to cut a hide into straps, how to apply grommets, rivets and snaps. Patterns and instructions for making wrist/bicep band, belt, Sam Browne belt, two kinds of bondage belt, suspenders, bondage cuffs, hogtie straps, D ring collar, locking buckle collar, leash, chest harness, stockings, head harness, strapon harness, seven gates of hell and braided handle floggers. All of the gear in this book can be made without a sewing machine and with a minimal set of tools that fit inside a book bag. If you make your own gear, you can save a considerable amount of money. A piece of gear that sells for \$120 in a leather store would take an hour and \$20 worth of leather and hardware to make.

Customer Reviews

What can I say? This book is written by someone with a great deal of experience in this area. Rather than torturing you with excessive verbosity, Daddy Wendell gets right to business, and tells you what you need to know. The book is mercifully thin, and has all the information you need to start making your own gear. As with everything, with experience will come... expertise. However, what

Daddy Wendell relates is very accessible, even for the attention impaired. What you won't find is a collegiate textbook that takes a team of Yak to move from one place to another. What you will find is the nuts and bolts of how to get from looking at leather gear and buying it at ridiculous prices, to being able to make it for yourself for a fraction of the cost. Rather than detracting from a person's interest in leather goods, it will make you appreciate them more. I have found it most stimulating, and look forward to putting it to good use in the very near future. Daddy Wendell is someone who has been in the scene, well, for a quite a while, and has the experience and the gift to relate what he knows to the reader: a rare gift.

With so many potential projects this book was extremely limited and the directions were very lacking. I was looking for more patterns and ways to make better quality goods

good be more material, but worth the money

This is a wonderful must have book for someone starting out in making leather gear, or a pro looking for some tips. The pictures and step by step approach gives you a basic platform to go and create your own personalized toys.

Really fun book for "toys"

A really great beginner book just what I needed to get started! Thank you!

wonderful information well grouped and good pics

Excellent
