Barbara Rockefeller: Barbara Rockefeller (New York, NY), founder of foreign exchange forecasting firm Rockefeller Treasury Services, has over twenty years of financial institution experience in all aspects of foreign exchange, including trading, analysis, and risk management. Rockefeller has authored four books, and writes a monthly column for *Currency Trader*, as well as articles and book reviews for *Active Trader* and *Stocks, Futures, and Options*. Nick J. Tate: Nick J. Tate,[Boca Raton, FL] award-winning journalist, editor, and author, has written extensively about health, business,

technology, finance, and consumer affairs issues. His work has appeared in Newsmax Magazine, Miami Herald, South Florida Sun Sentinel, Atlanta Journal-Constitution, Boston Herald, Health Radar Newsletter, and other print and online publications. Harvard-educated, the author's background also includes teaching health/science journalism at Emory University in Atlanta. Tate recently authored the bestselling ObamaCare Survival Guide, which continues to be the foremost resource on the subject.

This is a great guide for someone who knows nothing as they plan 10 to 20 years down the line for retirement. On top of that, it's of great use to those who are very close to retirement's doorstep as well. The inclusion of so many weblinks (that can be easily bookmarked if you use a Kindle), and specific retirement care resources should be useful to anyone concerned about Medicare, Medicaid, and long-term care (as well as if Obamacare affects any of it). This book unravels all of the different parts of Medicare, and focuses in on what YOU should focus on in order to get things done right. Good information on how to handle long-term care, how to remain socially active, and when to make important financial moves is all included in this guide to later life. The book takes care as well to warn about scams against the elderly, and provides an holistic approach to health, finance, and general life outlook. Some have said this book is a 'good' start. For me (some 15 years out from retirement at most) this book represents an informational treasure trove. As well, I can now speak intelligently to my 80 year old mother about her life in retirement. I look at this as a multi-generational guide through the golden years.

great insight on the upcoming years. allready see the Medicare mess after 2 months being on it. Should have read the book first. going to be a challange in the coming years.

Wish I had this book before I retired 16 years ago. I would have made different choices, especially regarding Social Security. When you apply, you are not given any information so you can make an educated decision. Highly recommend this book if you are contemplating retirement. However, it list Idaho City as cheapest place to live. It is remote & very little there since most of the town burned down.

Lots of interesting information to think about as you near retirement.

still reading

Some parts out of date; healthcare issues

Excellent read. In-depth info offers opportunity to understand a complicated issue.

Awesome buying experience!
