Hey, Let's Make A Band!: The Official 5SOS Book

Synopsis

Hi everyone, This book is pretty much our official story so far. It really does seem only like last week we played our first gig at the Annandale Hotel in Sydney. Since then we've been given the opportunity to turn into the people and musicians we wanted to be. The people who gave us the opportunity were the fans. So this book is like a thank-you. We want everyone to know the story of how four western Sydney teenagers picked up their instruments and dreamed of being one of the biggest bands in the world. There are also some embarrassing photos of us derping around and some facts that some of us didn't even know. So we hope you enjoy it! Love, cal, luke, ash, and mike x

5SOS, as they are affectionately referred to by their ever-burgeoning fan base, first met in the schoolyard in a small town in the western suburbs of Sydney, Australia. Luke (18), Mikey (19), Calum (19), and Ash (20) were brought together by a mutual love of pop-punk and the adrenaline-fueled super rock of turn-of-the-millennium America. They started posting videos on YouTube and within six months had amassed 50,000 Facebook fans, 100,000 Twitter followers, and more than 5 million YouTube views. The band relocated to London in September 2012 with one eye on world domination. Fast-forward eighteen months, and, having spent 2013 and 2014 touring the

globe, 5SOS released their debut album, which immediately reached #1 on iTunes in 71 countries and topped charts around the world, including the US Billboard chart. With more than 1.5 million albums sold worldwide and total single track sales in the US alone surpassing two million, it's been a busy year for 5SOS.

The book is awesome I love 5 seconds of summer. Will Smith would approve

HOLLY CRAPBALLS 5SOS LITERALLY ROCKED IT WITH THIS BOOK. ITS JUST SO... THEM. IT GENUINE, FUNNY, HAPPY, REAL, SO THEM. THATS WHO THEY ARE. THEYRE NOT FAKERS. THEYRE REAL AND THIS BOOK JUST PROVES EVERYTHING.

This would a great addition for any fan of 5SOS. I've already read the book from cover to cover twice and can honestly say that because I'm fan I enjoyed learning some things I didn't know about 5SOS back story. The pictures in the book are also great too.

I bought this book for my daughter (and ok a little bit for myself too) and I was really impressed. It is not a cheap, flimsy book. It is a high quality hard cover book with quality glossy paper. The stories and the photos are great. While it is geared towards "kids", it really is more for teens and not tweens as the boys can be teenage boys, and I mean that in a funny way. Thankfully they don't sanitize things too much, which would have taken away from how the guys are with their fans. I read the whole book and I enjoyed it a lot, and of course my daughter did as well. I think that any 5SOS fan would enjoy this, so if you are a parent looking for a gift, this would be a great one, and it will also get your kid to read if that's an issue.

I admit, my rating is a bit biased. I'm a huge 5SOS fan. guilty as charged. but it really was good. I loved it. I owe these boys my life. they did save my life. I wouldn't be here, the person I am today, without them. anyone who tells me that's stupid, well, I'm glad you didn't have to struggle with anything like this. life sucks, and I'm glad it was good to you. it wasn't very good to me, and this band saved me. I fell in love with each of them more and more every word, and with them as a whole a lot more. so, perfect 5/5 is only fair for this book.

This is the best book I've read in a really long time. I love all the individual perspectives of each band mate. It really give the book a more personable feel and makes it a little more interesting.

5SOS should write more books about their journey to star dom. I was really sad when I reached the end because I love the book as well as 5 Seconds Of Summer. They are bÃƒfÆ'Ã Â|. Complete bÃƒfÆ'Ã Â|!!!!

This book offers great insight on how the boys from 5SOS started the band and a bit about their lives then and now. It's also great because the four boys wrote the book themselves, so it is more personal. I'm not entirely sure, but the e-book might be a little shorter than the physical copy. Overall, a good read for almost any age of fans :) I would recommend it.

loved this book to bits! It came on time and was in great shape. Whether you are a fan or not, this book is super interesting and funny. I didn't want to ever put it down! I am a massive fan of 5sos and this book made me so proud of their accomplishments. If you have been a fan for a while, you probably won't learn anything new, but to be honest there's loads of great pictures that you could take out and put on your wall after you've finished reading to your heart's content. Also, the book is a hardback and the protective paper covering over it is the poster that they say comes with the book. (just thought I'd add that)
