Customer Reviews

Great, book. I had no trouble understanding it. The information given is useful when centering yourself on a career path. I do admit 20 years was too long to decide on a career as a nurse. But that's what makes this book great. I now have a objective in which I will grow and succeed through returning to school for training for my goals. I am thankful for the Career Fitness Exercise.

All of the pages I need for my class are ripped out of this stupid book and now I'm going to fail my online class for this useless book!!!!

Pages have what looks like water damage. Cover is bent and curls up, inside of cover page dirty black marks.

Rented this book only to find all of the exercises and vital chapters torn out. This book is rendered useless and should not be rented out again.

good
