i have read lot of books on sufism this is the best explained the facts i know .. would like to contact the writer

The concepts are well drawn. I used to be confused with all these metaphysical jargons. But this book illuminates me. I now understand clearly the sufi concepts. It's a great book. Highly recommended for the beginner in sufi and the seeker of truth.

Clearly written.

I did not expect to get much out of this but the philosopher in me wanted to inspect this quick and easy read. I was quite impressed. I recommend this for other non-Muslims to get a different perspective.

Very easy to understand for anyone interested in the TRUE beauty of non orthodox Islam...particularly in the Sufi tradition. Such wonderful people. Thank you! ^ ^ ^

Very visual, great job! Had a good time reading this and sharing with friends. It has a lot of wisdom and insight, very applicable to life.

This book is very interesting for me, even though I am not a muslim. The spiritual content is very deep. And explained in a non dogmatic way. It helps me to understand much better about the sufi ideas.
