Best Sellers Rank: #29,899 in Books (See Top 100 in Books) #11 in [Books > Travel > Europe > Greece > General](#) #17 in [Books > Travel > Reference > Phrasebooks](#)

Customer Reviews

It won't teach you the language, but it will help you get by. Used it frequently, and regretted it when I failed to bring it. I might suggest they include a one or two page tear out, to make it easier to bring just the "survival" phrases with you. Czech is a difficult language, and outside the tourist centers we ran into a number of "non-English" speakers and menus.

I liked the book well enough, but my native Czech friends laughed at some of the translations.

I bought this for my friend to help them plan a trip, they said it was amazing.

I love to use Lonely Planet travel related books since 1986. They have never let me down.

Worked as designed.

This book is perfect for my needs. It's very small- purse size. It covers topics I will need for travel plus more. The topics cover areas someone would need for a long term stay. I can use it before the trip to learn basic phrases with their phonetic pronunciation since I can't read the Greek alphabet. I can use it for reference to speak to shop clerks and waiters while there.

Better than mostly travel/phrase books I've had over the years, and I've had a lot!

As someone who is always interested in learning a little of the local language and not being a typical ignorant tourist, I of course again went to Lonely Planet for their awesome phrasebooks that have served me well for more than a decade. What they don't tell you is that no one in Greece speaks Greek. Of course that statement is an exaggeration. However over our 9-day trip to 5 cities, with the exception of one restaurant, everyone spoke English to us everywhere. Even places where we could easily - if not more likely - been tourists from another European country, the first words were English. The country thrives on tourism and that is made abundantly clear by the universal mastery of English. Which makes it easy, if at the price of losing a little of the magic that comes from traveling to new places. At any rate, the spine of this book was barely cracked. It may technically be just as good as every other Lonely Planet phrasebook. Except it definitely lacks the usual utility. So when you buy something and end up never wanting to use it...I have to take a star away.
