Before He Sees: A Mackenzie White Mystery, Book 2

Synopsis

FBI agent-in-training Mackenzie White struggles to make her mark in the FBI Academy in Quantico, trying to prove herself as a woman and as a transplant from Nebraska. Hoping she has what it takes to become an FBI agent and leave her life in the Midwest behind for good, Mackenzie just wants to keep a low profile and impress her superiors. But all that changes when the body of a woman is found in a garbage dump. The murder bears shocking similarities to the Scarecrow Killer - the case that made Mackenzie famous in Nebraska - and in the frantic race against time to stop a new serial killer, the FBI decides to break protocol and give Mackenzie a chance on the case. It is Mackenzie's big break, her chance to impress the FBI - but the stakes have never been higher. Not everyone wants her on the case, and everything she touches seems to go wrong. As the pressure mounts and the killer strikes again, Mackenzie finds herself as a lone voice in a sea of experienced agents, and she soon realizes she is in way over her head. Her entire future with the FBI is in jeopardy. As tough and determined as Mackenzie is, as brilliant as she is in hunting down killers, this new case proves an impossible riddle, something just beyond her reach. She may not even have time to crack it as her own life falls apart around her.

Book Information

Audible Audio Edition

#1217 in Books > Mystery, Thriller & Suspense > Mystery > Women Sleuths #2660 in Books > Audible Audiobooks > Fiction & Literature

Customer Reviews

Disappointing. This is the second book I have read now in this series and the main character is pretty annoying. She continuously and deliberately defies her superior orders and goes headlong into very dangerous situations all by herself to solve a case...all by herself. She's a rookie, and in

one case still a student but she still goes headlong by herself without even calling for backup first. These constant actions make the character hard to like and the storyline unbelievable.

I'm done with this author. ***Spoilers Ahead***** The writing is just not what I'd expect. The story is a good try, but getting there didn't work for me. I felt like they were trying to knit together Silence of the Lambs and a few Criminal Minds episodes. Mackenzie White is half way through the FBI Academy (living in her own apartment and picking and choosing classes like she's going to college, mind you) when she gets asked to help on a new case. Because it has similarities to a case she cracked when she worked in Nebraska. However, the author failed to provide ANY similarities to the other case, other than people were dead. And, since ALL of the victims had some sort of door to door job, Mackenzie is the ONLY one who can figure out that that is important? Are you kidding me? Again, trying to make a strong female lead be indispensable by making everyone else stupid. I feel like the writer had an idea for a story, but got stuck filling in the details and had to come up with SOMETHING to make her smarter than everyone else. Except that something was a detail my 5 year old niece could have figured out. And if the FBI is so worried about her working when she is only half way through the academy, why on earth would they yank her out of classes only to give her a hard time about it? The law enforcement aspects of the books this author writes are just too unrealistic. It's clear the author knows nothing about how law enforcement works, how academies work, how the FBI works. Very annoying. The FBI crime scene people go over a crime scene, yet Mackenzie can always find something they missed. The profilers are looking at the case, yet she is also the only one who can figure out what appears to be a very basic profile. Just stop. You can have a strong, female lead without making everyone else be so inept that she is the ONLY one who can solve anything.

Blake Pierce has me hooked again!! I couldn't stop reading this book. I loved how many twist and turns the book had. I love how Mackenzie did not stop until she figured out who the killer was. I would recommend this book to anyone that loves murder mysteries but do not like the more graphic novels, this book is just what you're looking for it has the mystery and suspense with out the graphic parts

Sometimes the desire for closure or a quick fix limits the ability to see beyond the obvious. Pierce through his character of MacKenzie White provides opportunities to see just outside the obvious. Even though in this storyline, the reader knows who the serial killer is, the mystery is how does Mac

White find him?

Mackenzie White is in the FBI academy and is put on a special case. She is looking for a serial killer. She is driven and determined to find the killer even if it means she has to break some of the FBI rules. I couldn't put this book down. It was full of suspense, the characters were made to be real, and you won't be disappointed with this wonderful mystery!

I liked the story even though it is basically the same story as the first just a different town, a different position and a different serial killer. Most of your detective stories with the same agent will have a new case for the next book.

I received this free e-book from and I am voluntarily writing a review. Mackenzie has left being a detective in Nebraska and is now at the FBI academy in Quantico and has been secretly pulled into a serial killer case.

I'm on to book three of this series.....loved it. Mackenzie White is an awesome detective! A great read, and I will be readying the fourth book when it comes out, I'm addicted. Thank-you Blake Pierce for the great strong person that Mackenzie White has become.
