Power Of The Seed: Your Guide To Oils For Health & Beauty (Process Self-reliance Series)

Synopsis

Fixed oils play a large part in most all commercial beauty treatments. Power of the Seed offers instruction on how to use these oils to create topical skin care, cosmetics, and massage oils. Additionally, Susan M. Parker presents advice and in-depth information on the different types, sources, uses, and structures of these precious oils. Over ninety rare and common oils are comprehensively treated, along with suggestions on how readers can use them to create their own original "recipes." Power of the Seed is the newest release of Process Media's popular Self-reliance Series that presents important DIY information in a visually enhanced easy-to-read and understand manner. Susan M. Parker is the owner and founder of Solum & Herbe, a skincare company that uses a wide range of natural oils to create nourishing, natural personal care products.

Customer Reviews

Susan M. Parker: Susan has extensive experience in the world of natural product formulation using oils. In addition to selling products through her own line, Solum & Herbe, she has taught classes at California School of Herbal Studies and the Northern California Women's Herbal Symposium.

I'm in love with this book. It's a richly detailed and well organized compendium of everything you could ever want to know about oils. The book is written with love and deep respect for the power of

the seed. The writing is vivid, spirited, and enjoyable. This book will be referred to time and again and is highly recommended.

Anyone interested in oils should buy this book, which has information I have not seen anywhere else!!

So far i love this book. I have learned so much about carrier oils and butters. I highly recommend this product and seller!

This is a fantastic resource for soap and lotion makers, very informative and comprehensive.

Packed with great information about carrier oils. A must have reference book for all those interested in the oily world!

I am using this book more and more as I formulate soaps and other body care products for my customers. Easy to read and gives the information I need to decide on which oil or oils to use for different situations.

I originally checked this book out from the library, but feel it is such a good book that I purchased it for myself. Great information I have not found anywhere else on several oils.

One of my favorite books to pick up over and over again! I love this book and wish that Susan had written much more on emerging and new oils and butters.
