How Anthropology Informs The Orthodontic Diagnosis Of Malocclusion's Causes (Mellen Studies In Anthropology)

Synopsis

Recognizing that in industrialized and affluent Euro-American populations there is an epidemic of malocclusion, this volume summarizes the literature and history of orthodontic aetiological thinking, related disorders, worldwide and time-successive human comparisons. In particular, it points to the investigations into chewing exercise resulting from resistant foods as the chief culprit.

Book Information

Series: Mellen Studies in Anthropology (Book 1)

Hardcover: 206 pages

Publisher: Edwin Mellen Pr; 1 edition (May 1999)

Language: English

ISBN-10: 0773479805

ISBN-13: 978-0773479807

Product Dimensions: 0.8 x 6.5 x 9.5 inches

Shipping Weight: 1.2 pounds

Average Customer Review: 5.0 out of 5 stars 3 customer reviews

Best Sellers Rank: #1,663,700 in Books (See Top 100 in Books) #18 in Books > Medical Books > Dentistry > Anatomy & Physiology #1202 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Surgery > General #1753 in Books > Medical Books > Medicine > Surgery > General Surgery

Customer Reviews

Hard read but probably one of the most important book that explains why everyone seems to need orthodontics and explains why apnea and snoring is rampant

The best book to understand the causation of maxillary malocclusions.

This is a way to understand how we humans view ourselves today and how the problems we have with malocclusion really date back to the development of agriculture and modern diet
