It's great!

Hi School material.

I think this book is the best for beginning clarinet. You can just about teach yourself with this presentation--but self instruction can lead to bad habits so I think it is essential that you hire a good instructor. Start learning from this book and the instruction will open wide the windows to learning the clarinet. It is a great book, you will be playing after finding the keys. I really don't care for the CD Rom, I don't think it is all that helpful. The pace of presentation in Essential Elements makes you have confidence that you can learn Clarinet and succeed. Great Book!
