Customer Reviews

This new, revised version of a classic masterpiece in self-guided music learning is better than ever. The color-coded page layout makes everything easier to grasp in less than ideal situations, such as when balancing the book in your lap and the ukulele in your arms while sitting under a tree, on your back porch, or any of the countless awkward situations we put ourselves in when trying to practice outside a music studio. The learning progression is smooth and natural, flowing from single notes to chords to basic music reading in easy, effortless steps. By far still the best book in the market for learning the ukulele.

Great beginning book, starts out easy easy and finishes with over the rainbow. Thanks Ron, ready for your next book

Received quickly, and seems to be everything I was looking for!!

I've learned a lot with this book. The DVD is good except for not being able to fast forward through

the intro. It freezes up. Well worth the purchase.

Its "OK".

Really good progression of learnibg. Not too many chords to overwhelm you.

It is a good book
