Customer Reviews

I love everything about this except for the LOUD bell tone at the beginning of each section. It is much louder than the people who are speaking. With that aside, everything else is perfect. I have several more cds to listen to, but what I've heard it provides much needed practice and review. I am learning a few new words and that, too, is nice! I have other cd sets from Penton Overseas and they have all been very helpful. I like how it moves from present to past and everything in between. I like the case it came with. Everything is right at hand in this case.

I bought this hoping to learn the Spanish language I am so disappointed when I listened to the first cd. I wanted to learn Spanish not to listen to music!!! How can I learn the language if I can't hear the

translation. It is better for me to throw it away than to ship it back I am sure that it will cost me more money to send it back that it came in a huge box. Like the saying you get what you paid for. I will NOT recommend this to anyone this is a RIP OFF.

Works on repetition and memorization. I found it absolutely necessary to print out the pages that show how the words are spelled. I refer to the printed words at the beginning of each lesson. Not a silver bullet, but when learning a language it helps to use this system in conjunction with other methods (classes, internet based programs & flash cards).

I have few Spanish language courses - this is the best because of: 25 CD - most others are 4 - 5 CDs I like the lessons with different subjects After ripping CD for my mp3 player each lesson gets a meaningful name, many courses leave you with name like track x or lesson x included are some .pdf files with short booklets cheap - I paid \$25 zalek

The CDs desperately need an English translation immediately following a Spanish word or phrase. Otherwise, we have no concept of what we're saying, or when to use the word or phrase.

Excellent product for learning in your car. Much better than Rosetta stone for that particular purpose.

Excellent quality, price and service. Highly recommended.

Bought this package for a friend because it worked for me. I was able to learn to speak Spanish fluently while driving to work. By far it beats Rosetta Stone which runs \$500, is not that effective and holds you up in front of a computer.
