## Customer Reviews

The Social Issues in Literature series is a gold mine for the high-school or even college student looking for an entry point into an analysis of a classic text. Reprinted articles are broken into three groups: those that focus on the author; those that focus on how the headline issue is exercised within the book itself; and those that expand that issue into contemporary settings. As there is so much existing material on Twain, *Race in Mark Twain's Adventures of Huckleberry Finn* is probably less essential, though still valuable in how it extends classic readings into the new millennium (one of the reprinted articles is by Barack Obama; another is called "Racism on the Campaign Trail"). Pictures are minimal, but movie stills are used when available. Readable and useful, these books will rescue paper writers everywhere.

Grades 9-12. --Daniel Kraus
