Oh, My God!: Moving Beyond Emerald City

Synopsis

This book is a follow-up to the author's previous one which revealed the underlying, but veiled, symbolism in the Wizard of Oz. His suggestion regarding the connection between Emerald City and the Catholic Church was not well received. Even more objectionable to many was his assertion that the powerless phony wizard, that 'Whiz of a wiz,' is a direct analogy to the God of the Old Testament. These chapters will serve as a guided tour of the 'spiritual nooks and crannies' of Holy Scripture. These nooks have been carefully ignored and side-stepped by theologians for a very long time. Those willing to start from a spiritual blank slate and step forward with an open mind will be shocked to their core by what they discover in the many never discussed nooks.

Customer Reviews

Javier J. Farias had some college and a Catholic upbringing but, fortunately, not enough of either to do any permanent damage. Thanks to his own awakening from the poppy fields of conventional dogma and a willingness to take a fresh, unbiased re-examination of 'Holy Scripture,' he is now a fully recovered Catholic with only the occasional flashback to Sunday school lessons. With or without impressive credentials, his words will stand on their own merit or not.
