- About Margaret Atwood

The Handmaid's Tale: Margaret Atwood's dystopian literary masterpiece tells the story of Offred, a Handmaid living in the near future in what was once the United States. A new theocratic regime called the Republic of Gilead has come to power and changed life as she knew it. Once Offred had a her own name and a loving family—a husband and daughter—both of which were taken from her; now she belongs to the Commander and his hostile wife, and her only value lies in her ability to bear a child for them. She used to read books and learn; now such things are forbidden to all women. Gripping, disturbing, and so relevant today, *The Handmaid's Tale* is a brilliant novel and a chilling warning about what can happen when extreme ideas are taken to their logical conclusions. The summary and analysis in this ebook are intended to complement your reading experience and bring you closer to a great work of fiction.

Customer Reviews

This is just a Cliff Notes version of the novel. It's written on a junior high school reading level. It reveals no insights or real analysis, and it has problems with syntax and grammar which should have been addressed before it went live. There is also one mistake with a character's name which a good editor would have spotted in an instant. I'm glad it was just \$2.99. More than that and I would have wanted my money back.

I would have preferred more discussion, analysis or critical review. The majority of the book was simply summarizing the plot.

A disturbing read with the theme of a possible future with lots symbolism. easy to read and hard to put down.

If you are reading this the first time around it may be helpful .

I read this book 1st to get a better understanding of the characters and the gist of the storyline of "The Handmaid's Tale". I highly recommend that you read this book first if you are considering it. It will help you immensely!

Ordered by mistake. I never used this so can't honestly rate it.

I read this book originally when it was first published, I enjoyed it as much the second time I read as the first! This is an awesome book! I'm planning to watch it on Hulu as soon as I can download the app on my Nook or iPhone or iPad. I recommend everyone read the book first!

I slogged through half of the book. In the end, I gave up when the plot never advanced. It is truly a miserable book. When there is so much better literature, find something else!
