George Bradshaw

This reproduction of a 1913 Bradshaw's is an interesting browse. All the schedules and all the advertisements a traveler in 1913 would have seen and used to plan a journey anywhere in Europe. Bradshaw's was so notable that Dr. Watson, in a Sherlock Holmes tale, uses it to plan where he will go next. This even oncludes the original maps. A magnifying glass, unless your eyes are very good, is a recommended accessory. Now if I could just find the Bradshaw's for England and Ireland....

I try to travel for a couple of weeks each year in Europe. It is very interesting to read about the locations I visit as they were over 100 years ago. Great buy, and great fun reading.

As this book was a present to a friend all I can say the reaction on his face when receiving it was worth it's weight in gold, thrilled with the maps and looking forward to many hours reading.

I bought this book for my wife who loves trains, the book hares with the reader what it must have been like back in 1913 when Train travel throughout Europe was the rage.

We love history and travel and this gives us both. It will make be a good reference book packed with info

Brilliant book supported by the DVD Journeys by Michael Portillo. Excellent presenter.

Great find for the history and rail buff. and ALL the maps are reproduced with the reprint. Only drawback...have a powerful magnifier on hand for reading

With the exception of the cover it is just like the original.
