Pretrial (Coursebook)

Synopsis

With its precise and succinct methodology, Mauet's text has earned widespread popularity and use, edition after edition. The Seventh Edition continues to build on the strengths that have made Pretrial a classic: highly distinguished authorship featuring recognized leading trial expert and renowned legal education author Thomas A. Mauet a clear, concise, and well-organized presentation of pretrial preparation techniques a systematic approach that organizes pretrial planning and preparation into a series of distinct steps that students can readily master sample litigation files from a hypothetical case that constitute examples of documentation and paperwork at every stage of the civil case additional litigation files on an included CD-ROM, with both plaintiff's and defendant's files for six different civil cases citations to commonly used treatises

Featured in the Seventh Edition: the electronic discovery rules changes, which became effective with the 12/1/06 adoption of the amended Federal Rules of Civil Procedure, and their effects on the pretrial process in general and the discovery process in particular the Supreme Court's decision in Bell Atlantic v. Twombly and its effects on how complaints are drafted the Class Action Fairness Act and how it changes the basis for removing class actions to federal court the most recent statutory changes and cases on the tax consequences of personal injury settlements additional statutory changes and Supreme Court decisions since 2004

Show your students how to prepare for and conduct civil litigation effectively, with Thomas Mauet's highly regarded Pretrial now in its Seventh Edition.

Customer Reviews

I had to learn how to represent myself in court and this book taught me how to organize my work, how to do my legal research as well as how to construct some motions. I found this book very helpful.

I am a Degree Paralegal, Law Student, and a professional litigant. I have recommended this and his other books for everyone who is a layman or Pro Se. The latest edition is not important.

Good book,...just what I was looking for.

Nice!

This book has great advice on how to draft pleadings and motions, how to plan and execute a strategy concerning discovery, and even has advice on client intake.

This is a good book for law students, not as good for attorneys b/c its brief and concise, all a law student needs but not what a lawyer needs.

Book as described, quick shipping.

I used this book in law school, got a grade of 9 (out of 9). Great resource for pre-trial litigation matters.
