The Atomic Sea: Omnibus Of Volumes 3,4,5: Epic Fantasy / Science Fiction Adventure Series

Synopsis

Never take your eyes off the water in this epic work of the imagination by New York Times bestselling author Jack Conner. Dr. Francis Avery and his crew of misfits have arrived in Octung, the heart of the war machine that has been terrorizing the world, but their work is just beginning. The Colossus are up to something, and only Avery and his friends can stop them. If Avery and the others can complete the Device and activate it in time, the world may yet be saved, but that won't be easy when they rouse the wrath of the terrible Colossus known as Uthua. The Atomic Sea: Omnibus of Volumes Three, Four and Five is the second box set in a series of epic steampunk and fantasy adventure novels. If you like action-packed storytelling, Lovecraftian horrors, and unique twists and turns you won't see coming, then you'll love New York Times bestselling author Jack Conner's incredible mix of fantasy, mystery and war. Buy The Atomic Sea: Omnibus of Volumes Three, Four and Five to dip your toes in the unique, endlessly entertaining tale today!

I first read The Atomic Sea because it was free on BookBub. Then because I thought the characters were cleverly invented and quite likeable, I found myself reading the other 4 volumes. I have to admit this world Jack Conner has created is nightmarish and very strange. Some of the descriptions are almost sickening, but the fantastical elements of this world and the highly realistic characters kept me reading. If you are into Sci-fi and fantasy, then perhaps you would also enjoy this series. Do as I did and read Volume 1. Then you will know if you want to or have to read the rest.

Such a weird series! I'm not saying this is ever going to make the list of great classical literature, but I really enjoyed it! I read a lot of these cheap Kindle books and after a while they all seem pretty much the same, but this one is very different. Kind of a silly storyline but kept me turning the pages till the end! Fun and unique!

The Atomic Sea is a mesmerizing story that grabs the reader and refuses to let go. Solid and satisfying an extraordinary piece of science fiction. Unforgettable characters, within a well developed plot. Connors imagination is as big as a Tyrannosaurus Rex. Thrilling, creative and captivating!! just can't get enough of this incredible read. Well written, impossible to put down! Jack Connor you're awesome!

Reading these three installments together is definitely the way to go, as one leads into another at breakneck speed. This section of the series takes the characters into more colorful and terrifying aspects of the Atomic World, like the Atomic Swamp and the dead city of Vulat, and it exposes even more surprising character transformations - especially for the Doctor and Sheridan. Fascinating and fantastically readable.

read all nine books..now waiting for the 10th. kept you reading. loved the story line. the characters are amazing. hurry up Jack.. write the 10th book please!!!

I am currently reading Volume 5. Really keeps you engaged. Does a good job of describing the world and peoples of the Atomic Sea World. I will definitely be buying the next installments.

Great series. I really like Jack Conner. He is definitely one of my new favorite authors.

Have really enjoyed reading this series. I enjoy a story that continues.
