Customer Reviews

Awesome, awesome book! I took Agroecology last semester (Dr. Racelis' class represent!) and had a great time learning about food systems and ecologically friendly practices.

great book! Gliessman is really on spot with this book, great source of information for anybody that is into Agroecology.

I have had worse text books, not too hard to read but nothing great about it. This is not a how to book, nothing is in usable details.
