"A kaleidoscopic collection of beautifully reproduced, breathtaking images." — Gregor Leigh, Cape Town Argus Book of The Month (March 2014) — Coast Magazine "This book

gets you thinking about waves and surf photography in new ways. It starts out with a feast of fresh angles and achingly perfect lineups, interspersed with quotes from some of surfing's most dedicated devotees. But then, instead of leaving the reader hanging with gratuitous images of saline perfection, it guides you through the actual process of capturing perfect wave images yourself. It's a toolkit cleverly disguised as a coffee table book, so beautifully presented that you never even realise you're learning something along the way." *Bradley Hook, Surfd.com*

Great photography! Special section on how to do surf photography from land, wave, air and underwater (I'm more of a photographer today than a water person). I was surprised to find no pictures from Santa Cruz or Mavericks but I did learn of a number of places I had not heard of. However I think I know where there are some even better places not listed...

I bought this book as a gift and it is a beautiful. This pictures are gorgeous!

This is a stunning book!! I've always wondered what surfing looked like from inside a wave. So very beautiful. It makes me wish I could surf.
