Answers Book For Kids Volume 2

Synopsis

Dinosaurs are fascinating creatures that kids simply adore, and even the youngest believer can recite the biblical story of Noah and his ark. Now discover how to answer some of kids' most interesting questions about dinosaurs and Noah's ark like: How did all the dinosaurs fit on the ark? How did Noah keep the animals on the ark from eating each other and his family? Where did all the water go after the Flood? Why aren't there fossils of humans from Noah's flood? Answers are important. If children aren't given answers to their questions about the Bible and the history it reveals, they cannot defend their faith against a secular worldview in a fallen world. The Answers Book for Kids series is a unique collection from Ken Ham and the creative team at Answers in Genesis.

Ken Ham is president and founder of Answers in Genesis and one of the most in-demand speakers in the world today. He speaks over two hundred times a year to large audiences.

My 5 year old son likes dinosaurs & we are full-Gospel, young earth, literal Word of GOD believers, so I appreciate Ken Ham's books & videos very much. Just be aware that this is a small book with more writing than pictures. A good resource for when he's older but not enough T-Rex eye candy for right now ;-)

I like the short question answer format and am looking forward to incorporating some of these questions into our regular children's Bible club. These books are designed well for the children's audiences. I like that the questions appear to be asked of specific children. The topic of Dinosaurs and the flood is particularly interesting to to many of our 7 and 8 year olds.

Great teaching tool for children and adults alike. While reading to children adults are also presented to the truths of scripture and prepared to defend there faith from a biblical point of view from the continued hostility and onslaught of society against the christian faith.

Exactly what we hoped for as new New Earth Creationism Christians! Yes, the books are small (check the dimensions) but well made. Great questions, and love that they are backed up by scriptural references!

A good bible-centric view the flood and dinosaurs. Ken Ham comes at it from a young-earth view. If you aren't looking for that or aren't comfortable with that, this is not the book for you. Size-wize the book is small but that was fine with us.

This book was smaller in size then I thought which actually makes it a fun book for my kids to look through. Great book!

Good books for children

A good resource for my child who is being taught evolution at school.
