Customer Reviews

Chuck Missler, after a distinguished military career and more than thirty very successful years in the business world, decided to pursue his life-long love of teaching the Bible on a full-time basis. He founded Koinonia House, an organization devoted to encouraging people to study the Bible. Koinonia House also produces the 66/40 radio broadcast, which features Missler's daily expository teaching. Missler and his wife, Nancy, have four grown children.

You can prove the Holy Bible. If one has any doubt of accuracy or science of the Holy Bible, Chuck Missler is the man to read, watch or listen to. This book is a survey, just a survey packed with facts you will not know from other sources. Facts you can verify, so you too can believe every word of Bible. Yesterday, I watched part of this book on youtube, saw Chuck show how world we know was created in 6 days and created in 15 billion years. Yes, both are true. Ever heard of time dilation? Time began to exist as matter was created & time is a function of mass, energy, distance, gravity

and more, not a constant. Time is not a constant! Chuck also proves the Bible in simple terms without need of science. In first hour of book, Chuck presents means to know proofs the Holy Bible is true. Buy the book! Or watch it presented as video, believe Bible is completely true, then buy book.

I have just discovered Missler's books and am fascinated with the preponderance of Biblical, numerical, almost in-your-face extra-coincidental occurrences his references. Most are simply supported by looking the verses up on your own, others a person has to dig a little deeper into available sources on the Internet and some I have been unable to substantiate at all other than take his word for it. It would be good if for each assertion, there was a clear, well-documented explanation or elaboration to give the reader even greater confidence should they wish to refer to it in teachings or sermons. Still, it is a very well written book and I'll continue to investigate some of his other titles.

The book is based on the widely popular video series, which as its name states, consists of 24 1 hour videos that go through the books of the Bible (the videos are available on YouTube). I loved the videos so much that I decided to purchase the book to go with it. One of Chuck's favorite expressions is "The New Testament is in the Old Testament concealed. The Old Testament is in the New Testament revealed." This book (and the videos) do an incredible job of proving this out. The book summarizes the Bible, highlights the integrity of the OT and NT, reviews the OT prophecies that were fulfilled in the NT, and calculates statistical probability of Jesus fulfilling the prophecies of the Messiah in the Scriptures (there are over 300 prophecies detailing the coming Messiah and all were fulfilled). A description on the Koinonia Institute website describes the series as: Using sound scientific facts, historical analysis, and Biblical narrative, Dr. Missler weaves together a rich tapestry of information, providing an accurate understanding of Scripture's relation to itself, to us, and to the world at large. This book will lead the reader through the entire Old Testament in a logical systematic manner. This overview of the Old Testament will emphasize the integrity of design as well as an introduction to conservative hermeneutics with an emphasis on inerrancy and using the Bible to interpret itself. And for the NT, a consolidated geographic presentation of the 4 Gospels is reviewed, exploring the distinctive perspectives of each. The essential messages in each of the Epistles are summarized. The Book of Revelation is presented as the essential capstone of the entire 66 books of the Bible, and the climax of each thread which was begun in Genesis. The origins of the Biblical texts and a critique of some of the shortcomings of the modern texts are also included. Book Objectives: The Torah, The

Historical Books, The Poetical Books, The Major Prophets, The Minor Prophets, The identity and role of the Messiah of Israel, Recent scientific and archaeological discoveries, Review the consolidated geographic presentation of the four Gospels, Explore the distinctive perspectives of each Gospel, Understand the essential messages in each of the Epistles, Identify Revelation as the essential capstone of the entire Bible which began in Genesis, Analysis of origins of the Biblical text and critique of modern texts.

This book is awesome!! The information and insights in this book have revived my love for God's Word. I am now revisiting areas of the Bible that I did not understand before. They also have a website that allows readers to see the Hebrew side by side with the English version. This allows for a much deeper interaction with scriptures--particularly those that seem to create confusion.

I've now purchased two editions of this book. While the latest edition doesn't have all of the detail of the previous version, I'd still recommend it to those who would like a deeper insight into the Bible. Don't be deceived by the title - - don't buy this book if you want to learn the Bible overnight. This actually requires a great deal of devoted time to study and additional scripture research. This (or any other Chuck Missler title) is not for those who don't already have a grasp of Biblical content. Missler includes studies in science, mathematics and physics and uses a strong apologetic approach to this work. Some areas like Daniel's 70 weeks, for example, can be a bit tedious to understand, but with a bit of additional time devoted, it leaves the reader with more knowledge and understanding of not only this topic, but others that reference it in the Bible. With that, I really have nothing negative to say about this title. To the contrary, I highly recommend it, as well as the older edition. I am also pleased that it comes in an audio version as, well. Kudos, Dr. Missler!

This is Missler at his best. We used this to do a neighborhood Bible study, and everyone seemed to enjoy it. Granted, at times his penchant for fascinating rabbit trails threw us a bit, but we always had such great discussions after going thru these materials. The workbooks are not the "complete" slide series -- which was a bit disappointing -- but the questions for discussion and further study in the back were great! One thing I truly appreciated about this particular series is how it enhanced my appreciation for the Bible as a comprehensive unit. I was able to see how each book fits into the design of the greater whole...for example, how Genesis relates to Revelation, and many of the intermediate steps in between. Most of all, I love the way Dr. Missler tracks the "scarlet thread" through each book of the Bible, showing how God was revealing the plan of redemption in Jesus

each step of the way!
