Customer Reviews

They really aren't. The droid you are looking for in this book is an assassin droid character that no one has ever heard of. My boys 6yrs and 2yrs are obsessed with the Disney Star Wars marketing machine. We bought them 4 Star wars books and this one is the least favorite of the bunch. The cover had me thinking that R2-D2 and C-3PO were on each page. Not the case. Not bad, but it's too easy for my 6 year old, and though pretty benign violence wise since it's Lego, it's still only mildly interesting for my littlest one. Try Jedi Academy books if you like comics, it was a huge hit at my house.

My son likes it (age 4), but it is unclear what he is supposed to find on each page. I thought it was searching for C3PO and R2D2, but it is some storm trooper, and I can't actually find him on some pages...

My insanely spoiled but adorable nephew loved this, despite it not needing batteries or to be hooked up to a tv screen. Great book for your little Star Wars needs!

The things it wants you to find are written in words, not pictures, so an adult would need to read this for a younger non-reader. I bought it with the intention of giving it to a boy for his 5th birthday. After looking at it and seeing how it is not an independent gift for a non reading 5 year old, I will buy something else as a gift.

My five-year-old Star Wars fan grandson loves this searching book.

Small but still fun. 24 pages of actual search and find content. The back few pages have the answers.

Not the greatest look and find for a young child, it did not get my child's interest.

Great "find them" book. Kids and adults love it!
