This book is darling! We love Salina Yoon books in our house. My daughter is 2. Under the flaps contain facts about the different ocean creatures. Currently the facts go over my daughters head, but I am sure she will love that part of it in another 12 months.

I like this book. My 20 month daughter enjoys it. The book goes through several common ocean creatures and has a flip up page of each animal that my daughter likes flipping. Overall I would

recommend for children between 1-3 years of age.

LOVED this book so much I bought it again for myself! The first copy I bought to donate at a preschool book event and honestly it is the cutest book ever! Not only is it educational but active with flip taps to show additional information about the ocean animals. BUY THIS BOOK! You won't regret it.

my 16-month-old daughter likes this book. she likes flap books generally and this one is big (about 8 inches square), with lots of interesting sea creatures.

So cute!!!!!! Very adorable, colorful, and perfect for mt toddler son.

My little girl LOVES this book, we have to hide it sometimes just to give ourselves a break

My 17-month-old loves it! Opens to the main pages showing all the creatures underwater and points to every one. This would have been a five-star review, but the flaps tear off very easily. Fixed with double-sided tape then a layer of book tape, but wish I didn't have to. Otherwise this is a great book for the little one's collection.

I got it for \$1.98 and it was such a bargain!! I looove this book! The rhymes are good but still teach you about the animals and the illustrations are great too! It is bigger than I thought!
