# Barron's AP Psychology Flash Cards, 3rd Edition

## Synopsis

This set of 500 flash cards has been revised and updated to reflect the most recent administration of the AP Psychology exam. These cards present the most important terms, events, and individuals that will likely be covered on the actual exam. For quick review, the cards have been organized according to the 14 major categories of the AP Psychology exam, including History and Approaches, Methods, Biological Bases of Behavior, Sensation and Perception, States of Consciousness, Learning, Cognition, and more. New features in this edition include updated terminology based on the DSM-5, as well as many additional examples designed to help students understand specific concepts through real-world applications. The cards have a punch-hole in one corner to accommodate an enclosed metal key-ring-style card holder, allowing students to arrange the flash cards any way that suits their study needs. Although designed primarily as an Advanced Placement test study aid, these flash cards can be used by all psychology students. They are especially helpful when used as a study aid in tandem with Barron's AP Psychology test prep manual. **BONUS ONLINE PRACTICE TEST:** Students who purchase this flash card set will also get **FREE** access to one full-length online AP Psychology test with all questions answered and explained.
