Naturally Occurring Alkaloids And Iridoids: Chemistry And Biological Importance

Synopsis

The book entitled "Naturally occurring alkaloids and iridoids: Chemistry and biological importance" contains the overview about the bio-active alkaloids and iridoids. Since, these class of natural products having significant medicinal values, so the complete chemistry including biosynthesis and the structure elucidation on the basis of advanced NMR techniques has been discussed in brief. The isolation techniques for these constituents are being highly emphasized. Their role in the plants and animals and detailed classification are also included in the text. This is a reference book which contains more than 300 references. The book is a summary of various significant researches and other contributions in the form of reviews and books, and the source of the facts discussed in the book are being cited in the text. The matter of this book would be helpful for postgraduate students as well as researcher working in the field of natural products chemistry.

Book Information

Paperback: 92 pages

Publisher: LAP LAMBERT Academic Publishing (March 19, 2012)

Language: English

ISBN-10: 3848414449

ISBN-13: 978-3848414444

Product Dimensions: 5.9 x 0.2 x 8.7 inches

Shipping Weight: 5 ounces (View shipping rates and policies)

Best Sellers Rank: #6,656,925 in Books (See Top 100 in Books) #7 in [Books > Science & Math > Chemistry > Alkaloids](#) #4695 in [Books > Science & Math > Chemistry > Organic](#)

Customer Reviews

Dr. Ruchi B. Semwal is currently working in Department of Chemistry, Panjab University, Chandigarh, India. She has a long experience in the field of Natural Products isolation and synthesis and published more than 25 research papers in various journals of international repute and having more than 15 impact points with a high value of H factor.
