## Customer Reviews

This is a great book for kids. I ran a study abroad business for 8 years in China and this is one of the top books we used to teach kids. I highly recommend it.

This book was required for one of my kids. The book came clean and she states it is useful and easy to follow. My Mandarin is non-existent so I can't speak to the quality of the writing. But the book itself is well made. It seems to progress logically. And maybe most important it looks like it will hold up for more than 6 months. It works well with the workbook though to my untrained eye they don't seem to correlate 100%. We will see.

Really easy and logic steps to learn Chinese.

So good!

Great book for Children beginners.

This textbook is very good, but not for a beginner that has NO access to a live teacher. Perhaps with someone right there telling you how sounds are pronounced it is a great book. The CD is confusing; for example, everything is in Chinese, even the problem numbers. It is very difficult to tell where on the page they are talking about. And, you have to listen to the introduction in THREE languages every time you want to repeat page one. Very annoying. If this was labeled "Book two" or "Use with a live teacher" this would get higher marks. And of course, the CD tracks need improvement. I had to put this book (and workbook) aside and watch Chinese videos on YouTube for a few weeks before even considering going back to the textbook.

When you are in a mood for lounging on the couch, you can study the reading and writing exercises. When you are in a more ambitious mood, you can go to the computer and do the listening exercises. I have spent one whole discouraging year in China, trying to understand Chinese. I am finally getting around to studying this book, and it is doing wonders for me. Because of the cartoon illustrations of children and because of the children's voices on the CD, most adult students might find this book rather demeaning. I am used to that sort of thing, though, because I teach kindergarten.

text books came about 3 weeks after ordering. No tracking information was sent. On the website, it clearly states that return policy applies. However, books from China has different return policy (restocking fees), which is not listed as a part of the section for general return policy, but separately at the end of the web-site. So you have to read through the whole website to realize that, if you know your books are shipped from China, you will have to pay the international shipping fee plus a restocking fee if you decide to return the books. deceptive in my mind. stay away from the seller if there is a chance that you might need return for refund.
