Customer Reviews

This is a good guide if you already have an idea about Pokémon Go and just want to validate some information or details. I like how it was delivered by the author. I feel like I am reading an online

forum with series of questions and answers. It is pretty basic that you can easily comprehend. So if you need to know about the most commonly asked questions, you can refer to this book and learn about the answers. The book also pointed out the reason to train your player and your team. The book pointed out all the games features as well. I would say this book is a comprehensive guide into Pokemon. I am glad i read it.

Wow! I enjoyed reading this book! I have learned new ways, tips and strategies to catch more Pokemon. I am still new to this since everyone is talking about it. So I am a little behind compared to my friends. With the help of this book, I guess I could catch'em all!
