Over the years she has mastered various fields of art such as painting on paper, wood and silk, polymer clay, stained glass, mosaic and more, fusing all of her experience in her mosaic work. This book is a TREASURE! I have many, many mosaic books in my studio, but this one, Beautiful Flowers by Sigalit Eshet, is my favorite. I have learned more from this book than any other in my library. Not only does this have fantastic pattern ideas...Sigalit's illustrations and wisdom in this area of art glass, make cutting so clear and easy! I would give this book 10 stars if I could!

Good instructions for creating mosaic flowers. Pictures are very informative. Sometimes the English is a bit awkward.

Sigalit has tons of examples making it easy to get started. She explains the entire mosaic process extremely well. She also continues to send supplemental materials and ideas via email. She is truly dedicated to her craft.

Written in very easy and simple instructions, but very beautiful items to attempt to replicate, or be inspired from. Enjoyed it and look forward in trying some flowers.

Wonderful book. Just what I needed to give me ideas for new project and how to. Recommend for the beginner.

I purchased this book last week, together with another book by Sigalit Eshet: Mosaics for the Home and Garden. I always wanted to create and this book took me step by step into a new world of Mosaic. It is a magical world - and the author of these two books - took me by the hand and showed me that I can!!!! I bought a cutting tool, mosaic tile adhesive, some colorful ceramic tiles and a wooden board and began to work. I started with a simple flower pattern and it came out so pretty and colorful. The directions are very clear and straight forward. SO - in just looking at the pictures and following the simple directions - I managed to make a flower!!!! I recommend this book for anyone who wants to find happiness in creating.

Inspirational and well illustrated. I enjoyed reading it and looking at all the wonderful creations! I can't wait to start my own projects.

Love this little book! Very basic glass cutting which helped me get started!
