Synopsis

Legends Of The Hags: Horrifying Stories That Will Make Your Hair Stand On End... Claim Your FREE Books Each Week With This Book!

Throughout history, mankind has had a fascination with witches, sorcery, and witchcraft. There is something so inviting about the power that is involved with black magic whether you are able to do it yourself, or if you merely read about others who have engaged in it. It doesn't matter how old you are or what your beliefs are, there is something captivating about being able to speak with demons and control things through spells. People in general have mixed feelings about witches. Some find them fascinating, others find them frightening, and some find them riveting. There are those who wish to learn all they can about them and what they do, then there are those who have their ideas and theories already, and aren't willing to imagine they could be wrong. No matter what your personal beliefs are where witches are concerned, this book is going to show you the truth. In it, you are going to find 13 different tales of witches and their covens things they have done, things they have been accused of doing, and eyewitness accounts of how they have haunted people through the ages. Judge for yourself if these are true tales, or if people have added and embellished them throughout the ages. There was a time when a witch was as terrifying as a monster, and as such the things they have done have been passed down from generation to generation. However you feel about witches right now, this book is going to show you the truth and give you a glimpse of what it is truly like in a world of sorcery and witchcraft. Keep an open mind as you read through these tales, and imagine what you would do if you were to ever meet a witch...Here's A Preview Of What's In This Book...True Witch Stories:The Curse of the Mexican WitchTrue Witch Stories:The Real Blaire WitchTrue Witch Stories:The Mysterious Practices of Stewart FarrarTrue Witch Stories:The Satanic Daughter of the Norse KingTrue Witch Stories:The Truth About the MidwivesTrue Witch Stories:The Truly Terrifying Tale of Bloody Mary Much, much more!

Customer Reviews

Very good book, some stories we know and some new, can use a little more historical facts added to them to elaborate more, but still good reads

Very interesting and informative. Thank you so much! I enjoyed this book.

Very good and to the point. Highly recommended.

This book contains a collection of interesting witch tales. Many are haunting and creepy, others a cautionary tale of misjudgment. Several founders of the Wicca religion are also mentioned, as is their unusual lifestyle. A short, creepy, informative read! Some are well known, others less so. All are creepy and enjoyable.

I'm interest in these kind of stories, but don't want to be involved in witchcraft. So sad to hear of the Salam witch trials and how bloody Mary came to be. When we as people fear ~ we can become crazy, cruel, or demonic ourselves. The saying should be; "Be careful what you fear, or you will become just that."

This book is a good read. Would recommend it for anyone with interest in this topic.

This book is absolute rubbish. Wicca has absolutely nothing to do with Satan (Wiccans don't believe in Satan. Satan is a Christian concept). The pieces on Gerald Gardner and Stewart Farrar border on slander. The facts in these stories aren't facts at all. They seem to come from somebody with an overactive imagination. The writing is stiff and repetitive without being entertaining in the least. Don't waste your time reading this garbage.

A big part of the stories are about covens, their founders and their activities in the coven. My favourite is the last story in the book about the origin of Bloody Mary - a truly horrifying and interesting one! I can only recommend it.
