The Best Choice for SAT Prep With nearly 70 years of experience, Kaplan's SAT products and programs are designed with students in mind. Kaplan's unique combination of the highest quality study materials, realistic testing experiences, and dynamic writers, teachers and tutors is unrivaled. We have the test-prep product that best meets every student's needs, from online programs, classroom courses, small group and one-on-one tutoring, to self-study guides. We even offer help and advice on paying for college and getting through the admissions process. Kaplan

provides advantages no one else can match!

Breaks down topics well and gives many problems to work with.

Bought this for my daughter. It's nice to have multiple full test for practice. But to really improve, it would be even better if there are MORE practice problem sets within each subtopic areas. That's the hardest things to find and would be what most kids would need. practice problem sets.

Good

ITS ALL YOU NEED TO LEARN, BUT ITS NOT THAT INTERESTING

I bought for my Son. Excellent

I got an 800 on my SAT 2 math back in 12th grade. I bought this book to tutor my student because, over the years, Kaplan has impressed me with their previous SAT subject test prep books, esp for chemistry and biology. While this book is fine for students aiming a 700 or so, it is not enough for those aiming for an 800. It lacks contents in Matrix, inverse trig, $\ln x$, e^x , and etc. Not enough content for the periods and amplitude of trig functions as well as the transformations of functions. Pros: clear format and organization Cons: missing some harder concepts

It is good for us.
