When God Winks At You: How God Speaks Directly To You Through The Power Of Coincidence

Synopsis

Those extraordinary little events in your life happen for a reason. A coincidence-sometimes a silly little thing-changes the course of your day . . . or even your life. Is it chance, or is God communicating with you? *When God Winks at You* is packed with true stories demonstrating that God does communicate with us, making incredible things happen in our lives every single day. As you read the riveting accounts of everyday and famous people-including Tim Conway, Rudolph Giuliani, Billy Graham, and Don Knotts-you will begin to recognize the godwinks in your own life, both past and present. Through these tangible signposts from God, we receive personalized messages that reassure us, stop us from worrying, chart our path in life, and help us keep the faith. When God winks, He is reaffirming that there is absolutely nothing about us that He does not know-our every hurt, our every desire. And that to me is very comforting. -Squire Rushnell

I could really relate to the stories because I know God has always been involved in significant events in my life but I did not always realize that until looking back at what had happened. This book was the first book I could not put down until I finished. It's an easy read and gave me peace. I can recognize God winks all the time now.

This book opened my eyes to all the God winks I have experienced in my life. I first met my future wife at the bottom of the Grand Canyon. I was running a marathon from the North Rim to the South rim. My two running partners asked me if I had ever seen Ribbon Falls, located 1/4 mile off the trail. I had not so they agreed we should take a detour to the falls. Upon arriving at the falls, a very pretty woman was standing up at the base of the falls. We chatted, she took a picture of us, and we continued our run. Six months later I had the urge to begin training for the Pikes Peak marathon. My training included running up what was then Squaw Peak in Phoenix. One of my training runs, I came up behind a woman who was walking, I could not pass her, so we began talking. She asked me if I ran this mountain often. I told her only when I was training for a marathon. She said she saw some guys running a marathon last October in the Grand Canyon, I mentioned that I was running a marathon in the Canyon last October. At that point she looked at me and said, I have a photo of you in my Canyon photo album...at that point I realized we were experiencing a Godwink. The rest - - as they say - - is history.

For many years a dear friend of mine spoke of god winks. "How appropriate to the situation" I often thought. Then, I found this book on my Kindle reading list and bought it. By now my dear friend was terminally ill with only a few more weeks of life ahead of her. "How appropriate to the situation" I

thought. So I bought it and read it from "cover to cover" on my Kindle and shared the information with her. How we both enjoyed the book. What a good read it was and is. When we started taking stock of happenings in our lives, we found that there had been several God winks that led inexorably to our coming together and building a long sister-hood friendship. What a special, humbling, joyful feeling we both experienced.

Whether you go to church every week, think about it at Christmas and Easter or just remember listening to Bible stories as a child in Sunday school, *When God Winks at You* could open your eyes to a new way of seeing how all the little (and sometimes big) coincidences that form our lives may really be more than they initially appear. It certainly did for me . . . and for the five people I sent the book to this past Christmas. It's a series of true stories about real people the author collected that demonstrate how events in our lives may be part of a Master plan, and what we often think of as coincidences may be God's way of winking at us to let us feel his personal presence with us at every turn. Sound heavy? It's not. It's actually light reading that's entertaining and thought-provoking at the same time . . . and may just bring a smile or two to your face! You may even find yourself buying more copies for the people you love.

Wonderful short stories illustrating how God intervenes in the lives of the common person. Easy to read stories which have moved me to tears at times. Inspirational. Will help lift your spirits and you will find yourself looking for God at work in your life.

This is a well written collection of short inspirational personal experiences related by the author to help explain the "God Winks" that many folks call "coincidence". It depends upon the reader's personal beliefs if t you call an unexpected incident to be a coincidence or a "God Wink". I found this book to be very uplifting and one that you can pick it up and read a few "God WinKs", lay the book down, think about what you have read, and then come back later and read even more uplifting stories which I assume are true experiences of those sharing their "God Wink". All in all this book is an uplifting experience, even for skeptics!

I LOVE this book. Purchased it for a friend for her bday and she has enjoyed it. Filled with many small stories about coincidences that are actually God Winks. Very heart warming, inspiring and an easy read.

Whether you're a believer or doubter, the true accounts told in this book will affirm/convince you that there really IS a 'higher power' that helps steer our lives. The adage, 'ask and ye shall receive' holds true in 'When God Winks...'. I can attest from several personal experiences that there is power in prayer once you relinquish your control to the Universe or to the specific God of your beliefs. Things DO happen for a reason, but they all don't have to be bad. Life's one big lesson, and it's up to us how we chose to use these lessons. In "God Winks...", the reader learns that by giving-over your troubles to (your) 'higher power', you're more in control of your issues by working in partnership. All you need do is pray with humility and sincerity---and be careful what you ask for! When God Winks at You: How God Speaks Directly to You Through the Power of Coincidence
