Murray Chandler gained the chess grandmaster title by winning events in New York and Amsterdam. During 28 years as a professional player he has taken part in over 150 international tournaments, in 32 different countries. His previous books for young players - *Chess for Children* (with Helen Milligan), *How to Beat Your Dad at Chess* and *Chess Tactics for Kids* - are widely used in schools and by junior coaches.

Got these for the kids.

Grandson liked it and played with it for several days. Now it lays on his desk. It was worth the money.

I'm a professional chess teacher, and I really like Murray Chandler's books --they tend to have nice collections of thematically related tactics. I was excited to receive *Chess Puzzles For Kids* in the mail yesterday and I started using it in lessons today. Each tactical theme has an "easy" and a "hard" version-- good for teaching multi-level groups-- and makes a great warm up.

Good

Great book with a lot of puzzles, it must be read after the opening tactics and basic strategies are clear.

I found it very helpfull

My 13 year old is addicted to all things chess. This was a birthday gift and he has enjoyed trying to solve the puzzles on each page. He gives it 5 stars.

It's slightly harder for very beginners.
