Customer Reviews

Rainforest Publications specializes in the Wildlife and Natural History of Central and South America. Our wildlife guides are the perfect companion if you're a naturalist, bird watcher or adventure traveler. Our illustrators live in Costa Rica and are tops in their field of interests. Our scientific staff continually updates the guides so the information is complete and accurate. Our print company is locally owned by its employees. Our guides are printed in the US on recycled paper.

This was a great help in the jungle in Costa Rica in indentifying some of the more common plants and animals. It was great fun to try to find what we were seeing and learn a bit about it on the spot. The lamination was a life saver otherwise the humidity would have rendered the guide useless. Very glad we had this along on our adventure.

This was great to have while visiting Costa Rica. We carried a permanent marker and put the initial of the location where we saw each animal. It's now a cherished souvenir of our trip. Great fun to see how many places we encountered monkeys and sloths!

Perfect companion for traveling in Costa Rica. I was really impressed at how much of the fauna we

saw was in the guide and very easy to identify. Very helpful and highly recommend. Waterproof too...because it DOES rain in CR!

Awesome booklet to have while traveling in Costa Rica. So much wildlife to see. Many fellow travelers & locals enjoyed looking over our map & wanted one of their own. I wish it had been waterproof but the laminate held up well for about 2 weeks. I would suggest buying the other booklets too.

I loved having this with me on my trip! I marked off the creatures I saw and it will help me remember them as time goes by.

The Rainforest publications are perfect for vacation travel. Although not technical nor all inclusive for wildlife or plants, they cover the majority of species you're likely to see and are so much easier to transport than full-size field guides.

Easy to carry, and it identifies most of the wildlife you will see unless you are a true birder. If you are then you will need a field book.

Buy before you go - it's cheaper here at home than in Costa Rica. This is great for the casual wildlife observer (especially for kids). Obviously, if you are a hardcore naturalist type, you'll be better off with a full guide.
