Fly-About Adventures And The Ercoupe: Flying The "open Cockpit Convertable" Ercoupe

Synopsis

Fly-About Adventures and the Ercoupe offers real flying adventures in a wonderful classic convertible type Ercoupe airplane. Come fly with me to OshKosh, Sun-N-Fun, the Arkansas Picnic, and other cross country trips. Experience unique discovery and the unbelievable. Many events are supported with neat color photo's. Words are good but nothing says so much as pictures. The book also provides insight to what it's like to own such a fun filled open cockpit convertible aircraft. There are also photo's of modifications by owners such as paint schemes, instrument panels, etc. Over 5,500 of these aircraft and 11 models were built by several companies between 1940 and 1970. 70 years after the first Ercoupe was built, there are thousands still airworthy, affordable, and being flown by pilots seeking their remembrance. With a bit of imagination, you have the opportunity to fulfill your dream of flying adventures too.

Paul Prentice first soloed on his 16th birthday. Money earned from running a milk route paid for lessons allowing him to solo a Piper J2 cub with 8hrs and 15 minutes of instruction. That was 67 years ago and with several thousand hours under his belt, the joy of flight has never lessened. He has owned a number of light aircraft including 3 Ercoupe/Aircoupe planes. This book is really a hangar flying session with the author, not really a book in the normal sense. It is a fun read and if you have or want to have an Ercoupe, it is well worth the time and money. It would be nice to spend a lunch with him, but the book serves as a pretty decent alternative.

Great read. Non technical but fun.

For a Coupe driver a must have! For an aviation enthusiast great insight into a classic aircraft. Buy a copy!

Good stuff, an Ercoupe classic.

book has very useful ideas for Ercoupe owners that are well worth the \$9.99 book price. I would recommend this book.
