2009 International Fire Code: Softcover Version (International Code Council Series)

Synopsis

Get up-to-date on the critical regulations governing the safeguarding of life and property from all types of fire and explosion hazards with the 2009 International Fire Code. This newly updated resource is the ultimate reference guide for addressing fire safety in both new and existing buildings. Using prescriptive- and performance- based approaches, this guide includes coverage of general precautions against fire, emergency planning and preparedness, fire department access, fire hydrants, automatic sprinkler systems, fire alarm systems, and hazardous materials storage and use.

ISBN-13: 978-1580017299

Product Dimensions: 10.7 x 8.4 x 1.1 inches

Shipping Weight: 2.8 pounds

Average Customer Review: 4.5 out of 5 stars 4 customer reviews

Best Sellers Rank: #575,048 in Books (See Top 100 in Books) #48 in [Books > Law > Business > Construction](#) #83 in [Books > Engineering & Transportation > Engineering > Reference > Architecture > Codes & Standards](#) #650 in [Books > Law > Specialties](#)

Customer Reviews

International Code Council's publishing partnership with Delmar has made available to all involved in building design, construction, code analysis and application the highest quality technical code support publications by expert authors and educators. The Delmar and Code Council co-publishing and distribution partnership extends the reach of our joint efforts into hands of those who need the best information on time. --Hamid Naderi, P.E., CBO, Vice President - Product Development, International Code Council, Inc.

ICC is a leading organization dedicated to developing a single set of comprehensive, coordinated national model construction codes. To date, 48 U.S. states have adopted various international codes from ICC.

just as expected

This edition covers all of the changes for the 2009 edition of the International Fire Code. It is a very good reference book for those involved in code work when following the 2009 edition.

Ordered the set for work. This is the least expensive price I found and free shipping.

This was a very good resource for cross referencing issues with several facilities in the Colorado area. Some of the Fire Departments are leaning more heavily on the IFC for some applications, while still using the 2009 and 2012 NFPA 99 and 55. It is a struggle to work for LTC's and know exactly how to advise them on Oxygen storage issues without first getting the language down to work with the different Fire Marshals and HazMat Officers. This helped a lot.
