Customer Reviews

This book opened my mind to all the possibilities for making extra cash out there. Had no clue about private label businesses, but now I see how to relatively easily set one up and start making cash. Have already talked to some suppliers and will hopefully have a product out in the next month or two. Thanks!

This book may be seen as short by some, but it's just what anybody needs who is thinking about private label selling on . While I've seen the majority of this information elsewhere, I recommend it to beginners new the process and it's a good first step to learning.

This book is a good outline of what you need to know before deciding to start a Private Label for selling. I get people being a little peeved at the spelling mistakes, but you can get the message plainly enough. There's also a schedule plan to follow leading up to starting your business. I will keep this book in my library to re-read

This book simply repeats what one would easily find for free with a simple google search of the subject. Quick read but no meat. Points to a few good external sources but does not say what to do with them. For example, the part about financial analysis essentially only says that it is very important to do but gives no worksheet or anything of value that one can use to actually do the analysis.

Excellent point made in this book that are shaping my thinking and helping me get to the next level. I need to read it again.

I have been selling used books on for several years and recently took an interest in FBA. I have read ten books on the subject--Private Label Empire was far and away the best. The author is clear, specific and smart, and he lays it out step by step. This is an excellent book. If you are interested in FBA, this is the book to read. I have it on Kindle and plan to order a bound copy so I can write in the margins.

Just the spark I need it to get going. Learn how to make extra money in your spare time.

Short and to the point. A great "how to" guide to start from the very beginning. Can't wait to get going!
